The City of Harrison is an Equal Opportunity Employer and Provider

November 12, 2013

Dear Promise Zone Team,

This is a letter of support on behalf of the City of Harrison for the Promise Zone. As one of the major entities that apply for grants, we think this is an exciting opportunity to enhance our revitalization efforts in our community. We believe this could further expand our opportunities and help cut some of the red tape.

Since we are already engaged in a downtown redevelopment project, which includes a creation of a community kitchen/retail incubator/food distribution along with another project that includes traffic calming, safe routes to school, and streetscaping project to improve the quality of our downtown, this would certainly help in the efforts to revitalize our distressed community. In addition, this will create jobs and encourage new business development in the downtown area. We would encourage you to choose the Northern Transformation as a Promise Zone recipient.

Sincerely,

  
Stacy Stocking  
Mayor
