Promise Zone Review Committee

Dear Colleagues:

The Gladwin City Housing Commission and its affiliate partners support The Northern Transformation and are committed as a Participating Partner to further the efforts of the Promise Zone Initiative. On behalf of the Board and myself this letter serves to commit the following as Participating Partners:

- Gladwin City Housing Commission
- Council on Aging – Gladwin County
- Gladwin City County Transit
- Gladwin Community Services Corporation

All Participating Partners listed in this letter are dedicated to provide decent, safe and sanitary living to all members of Gladwin County through housing, senior care & transportation. We manage 123 Section 8 apartments for seniors or disabled and 70 Public Housing apartments for seniors or families. We provide in home services and meal delivery programs to seniors through Council on Aging. Our public transportation system is county wide with county to county services available. We also manage a Community Development Block Grant for Gladwin County to provide homeowner rehabilitation. All programs come with guidelines, but the main commonality to all of these services is income.

All Participating Partners listed in this letter recognize that the Promise Zone Initiative designation can bring help to the people we serve with better housing, in-home care and transportation.

Sincerely,

Lauren M. Essenmacher
