Northern Transformation

Promise Zone Review Committee

Gladwin County Habitat for Humanity supports Northern Transformation in its application for the Promise Zone Initiative and The Consortium of Partners in this service area as a participating partner.

The Gladwin County Habitat for Humanity Mission Vision is to provide decent affordable housing for everyone. Our service area is Gladwin County. Our partner families are selected based on need for housing, willingness to partner and income based on size of household using HUD guidelines.

Our affiliate is initiating The Brush With Kindness program through Habitat for Humanity as well as new construction or recycled homes. We have families to partner with and volunteers to help with these programs, funding limits the number of families we can help in Gladwin County.

Gladwin County Habitat recognizes that the Promise Zone Initiate designation would bring additional funding and assistance to families in this area.

Sincerely,

A handwritten signature in cursive script that reads "Julie Lennon".
