

# *Roscommon Human Service Collaborative Body*

November 20, 2013

Dear Promise Zone Committee:

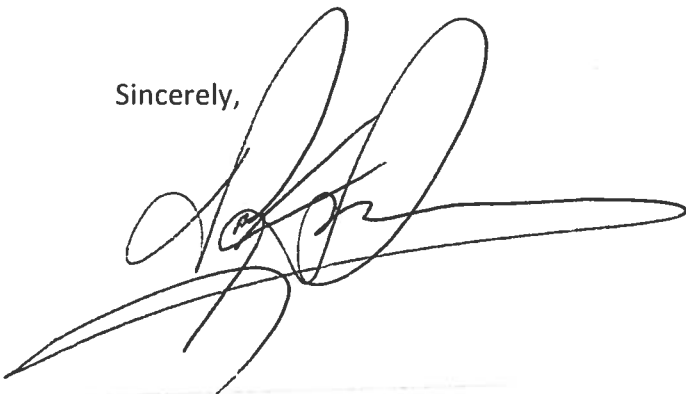

The Roscommon Human Service Collaborative Body is committed to helping others in our region. We meet monthly to address common goals, share ideas and develop an action plan that will help us move forward to address the needs of and welfare of our region.

The purpose of the Roscommon Human Service Collaborative Body is to achieve our collective vision of quality of life in our communities through the provision of leadership in the design, delivery, and oversight of health, education, and human services. Our vision is to improve the quality of life through an area-wide organization by providing a collaborative delivery of services based upon community needs.

Grants and funding opportunities are essential to the growth and prosperity of our organizations and our region; therefore, we as an organization support the efforts of Northern Transformation as the lead applicant on this initiative along with their consortium of partners Eastern Michigan Council of Governments, Michigan Works Region 7B and Prima Civitas.

If awarded this designation, we look forward to collaborating with our partners on grant opportunities that will positively affect our community by creating job opportunities, reducing poverty, increasing economic activity and expanding educational opportunities.

Sincerely,

A handwritten signature in black ink, appearing to read 'Judge Dosson', with a long horizontal flourish extending to the right.

**Judge Dosson**
